Publications (1)

Rdudh T, Herrmann I, Hornung R (2021). Developing a Potential Treatment Approach for Severe Preeclampsia Based on Magnetic Blood Purification. Presented at: International Federation of Gynecology and Obstetrics (FIGO) World Congress, Virtual Congress

Projects (5)

The Role of the Inorganics in Preeclampsia Assessed by Multiscale Characterization of Placentae

Fundamental Research - Nov 1, 2020 - Dec 30, 2021

Automatically Closed

Potential treatment approach for severe preeclampsia by using nanoparticles

Fundamental Research - Jan 1, 2020 - Dec 31, 2021

Automatically Closed

Nanopartikel und Fremdstoffe an der menschlichen Plazenta: Transport, Aufnahme und biologische Effekte

Fundamental Research - Jan 1, 2020 - Dec 31, 2021

Automatically Closed

Inorganic Nanoparticles with Anti-inflammatory and Antimicrobial Activity: New Prospects for Long-term Local Immunoimodulation?

Fundamental Research - Jan 1, 2019 - Dec 31, 2019

Automatically Closed

Exploring the Origins, Characteristics and Implications of Placental Calcification - A Materials Science Approach

Fundamental Research - May 1, 2017 - Apr 30, 2020

Automatically Closed
