Units

Operative intensive care medicine

Profile Function

study nurse

Publications (1)

Ehlers U, Ulmer J, Keller M, Klein C, Pietsch U. Comparison of continuous temperature measurement methods in the intensive care unit: standard bladder catheter measurements versus non-invasive transcutaneous sensors. J Clin Monit Comput 2024

Projects (5)

Colchicine in Patients at Cardiac Risk undergoing Major Non-Cardiac Surgery: prospective, randomized, triple-blinded, placebo-controlled, multi-centre study

Clinical Studies - Nov 1, 2024 - Sep 30, 2027

Scheduled

Shunt-dependency after aneurysmal subarachnoid haemorrhage – the role of early hyperglycaemia in cerebrospinal fluid and blood

Clinical Studies - May 26, 2024 - Sep 1, 2027

Ongoing

Analysing the effect of POCUS on situational awareness with an eye tracking device - an observational, prospective study

Clinical Studies - Sep 21, 2023 - Dec 31, 2025

Ongoing

Die Rolle der Überwachung der zerebralen Autoregulation nach größeren nicht herzchirurgischen Eingriffen - eine Teilstudie der AUTOREGULATE-NONCARDIAC-Studie zur Belastung und prognostischen Bedeutung der postoperativen gestörten zerebralen Autoregulation und zur Durchführbarkeit der postoperativen zerebralen Autoregulationsüberwachung

Clinical Studies - Feb 1, 2023 - Dec 31, 2025

Ongoing

A preliminary study validating a textile-based wearable sensor for continuous respiratory monitoring in patients during sedation

Clinical Studies - Jul 22, 2022 - Oct 31, 2023

Automatically Closed
